# Timeline Section

This document is also available as PDF, yo can find it in your section **zip file**, the file is called **timeline-documentation.pdf** or you can download it direct from the follow link: Timeline Documentation.

**This assume that you have already purchased and installed PageLines DMS.**

# Get the Zip File

Download the section zip file in to your computer, the files can be obtained from the PageLines Store.

# Standard Installation

- Login to your WordPress Administrator.
- Navigate to Plugins.
- Click Add New.
- Locate and click in the Upload link
- Click in the Choose File button.
- Browse your computer and locate the zip file.
- Click Install Now.
- When the installation finish click the Activate Plugin.

# Manual installation

If you encounter problems using the WordPress Installer, you can manually install the plugin using a FTP client.

- To install using a FTP client, you will first need to extract the zip.
- Using a FTP client, access your host web server and navigate to the wp-content/* plugins directory.
- Now upload the new folder to wp-content/plugins
- Your structure should end up like this wp-content/plugins/plugin-name
- When the installation finish click the Activate Plugin.
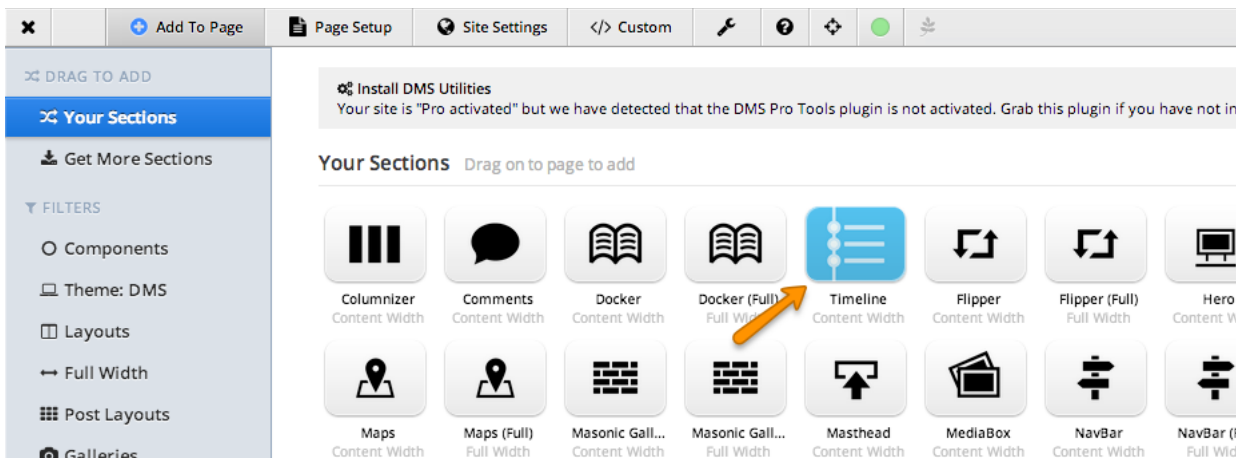

# Reload Sections

Once the plugin is active, go to your front-end and locate the "Add to Page" tab and click the "reload sections" button.

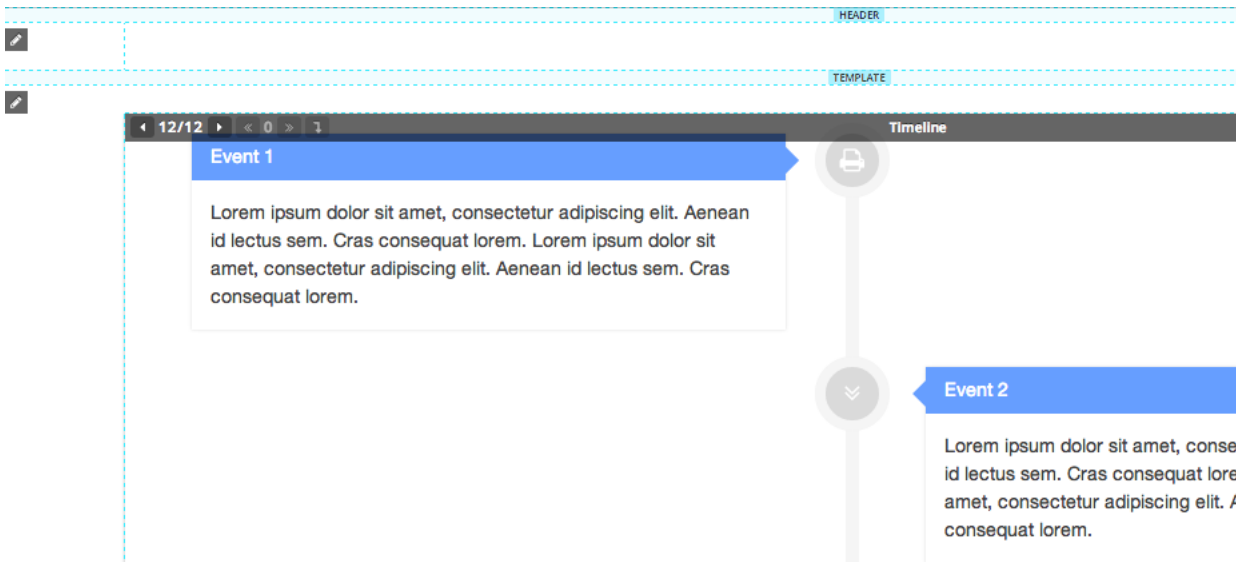

### Locate the section icon

Now you should see the "Timeline" section in the grid.
